Dear Mr. Shetrone Jr.,

I am applying for the **Technical Writer** position found on the <http://www.visiontech.biz> site. Among my qualifications, the following are the most relevant and are potentially the most useful to your team:

I am Master Certified in MS Office 2003 but in the last, several years have continued to update my skills in Office 2007, 2010 and 2013. I am among the very few that IT has testing various new builds (Windows 10 & Office 13 is my current combo) before deployment to the rest of the staff as I learn new software easily and am skilled in finding and offering fixes to technical issues.

I can help your teams think through new processes and completely document detailed steps via visuals, written and UML processing diagrams. This has led to streamlined Management Information Systems input, which reduced time consumption by 50%. I have also built and currently maintain multiple internal systems that has streamlined and cut team work time by 75-80%. Due to the limited selection of software on my work PC I am often creative in my use of what is available to create graphics using Adobe DC, Paint, Word, PowerPoint or if needed an online tool to create or modify files as needed. At home I use the Corel Graphics Suite as well as multiple open source solutions depending on my needs.

Often I am working on several projects while maintaining attention to details and problem solving on the go. For example, I have several regular e-mail boxes to monitor continually, in addition to multiple databases to compare data and update as necessary, applications to process and phone or in person questions to answer. Other units in the division from Quality Assurance to the Division Director have "borrowed" my skills, talents and knowledge for a variety of projects including file conversions, form creation and graphs or charts.

My professional portfolio is available at [www.sue-a-darby.com](http://www.sue-a-darby.com). You can reach me at 907-707-5654 or at [sue@sue-a-darby.com](mailto:sue@sue-a-darby.com). I look forward to hearing from you. Thank you for your consideration.

Sincerely,

**Sue Darby**

I am seeking full time work and have over 20 years of experience as an advanced computer user and writer. I have been proven to be detail oriented in determining the requirements for both users and technical staff providing a unique bridge between management and technical staff. Creative in the use of technology to solve problems and create detailed business processes.

**Areas of expertise include:**

⇒ Content Management Systems ⇒ Cloud Tools ⇒ Procedures ⇒ Programming ⇒ Social Media ⇒ Diagrams  
⇒ Databases ⇒ Office Suites ⇒ Data Tracking ⇒ Graphic Arts ⇒ Data Analytics ⇒ Tracking Systems ⇒  
⇒ Operating Systems ⇒ Technical Writing ⇒ Sewing ⇒ Problem Solving ⇒

#### **Business Owner, Technical Writer, Author, Webmaster**

Sue's Tiny Costumes

1996-Present

---

Sue's Tiny Costumes makes patterns in the micro scale from 1/2" tall baby dolls to 18" lady doll patterns. Sue Darby owns and operates the business and has since 1996. She has published 2 books to the Library of Congress "Pattern Drafting for Miniatures" and "Pattern Making for Dolls". In addition to these books she has self-published over 100 patterns for dolls and been featured multiple times in doll and miniature magazines. Each pattern takes many hours of planning and work from design concept, to measuring and drafting the pattern for the doll both by hand and by computer, to testing the pattern and writing the technical instructions for others to complete the same design. Beyond these basics for each pattern are diagrams of sewing techniques and photography of the finished items for both the pattern and for her website, social media channels and other marketing material.

### **Key Contributions**

- Project planning of technical books and patterns
- Project management of pattern drafting projects
- Published author of 2 books and over 100 sewing patterns
- Photography of finished items for patterns and website
- Website design, development and management including new content and security

### *Awards & Publications*

- International Doll Magazine, Pattern Consultant 6 published patterns 2004-2005
- Dolls In Miniature- article 2005
- Doll Castle News- article 2005
- State Fair 2005 Little Bo Peep and her Sheep (Kitty Collier & Tiny Betsy)
